

The Base System Builder has successfully generated your embedded system!

Click the Finish button to return to XPS to compile your hardware system and software application.

```
C:\WARP\BoardTests\IOTest\system.mhs  
C:\WARP\BoardTests\IOTest\data\system.ucf  
C:\WARP\BoardTests\IOTest\etc\fast_runtime.opt  
C:\WARP\BoardTests\IOTest\etc\download.cmd  
C:\WARP\BoardTests\IOTest\system.mss  
C:\WARP\BoardTests\IOTest\system.xmp
```

Save settings file:

C:\WARP\BoardTests\IOTest\system.bsb

The settings file contains all the user's selections and inputs in the wizard session. It can be loaded in a future wizard session.
